Pokemon Ruby Destiny - Life of Guardians Review by: linkmaster999 - 9.5/10Pokemon Ruby Destiny - Life of Guardians ReviewWell, as you all know that I don't consider much, but after playing this game for a while I thought I could give it a shot. Well today my review on Pokemon Ruby Destiny - Life of Guardians. I've seen challenging games, but this game really takes the cake. First, you travel through a whole new made up region called Heva. I would say although it was pretty decent and caught my eye for a while. I enjoyed the time I spent playing it and hopefully I see to do it again. It was a good piece of work and wouldn't mind seeing more hacks done. I would say that this Pokemon Ruby Destiny - The Life of Guardians is a wonderful piece. With all that being said, it's time for a real explanation to begin. Graphic: 9 Graphics was OK and I didn't see a problem with it. The only thing I really didn't like was that noob looking Pokemon called furruny. Other than that they seemed absolutely perfect to me. Some Pokemon were actually looking pretty good though, and the sprites were good as well. I would also say that most of the characters didn't fail to surprise me either. Not only was the legendary Pokemon the best of all. I would say though this game was the time when pixels aka quality started to get really bad. I didn't mind though because it was only for a short period of time. So yes the game really didn't have a lot of bad graphics. Sound: The 8Well sound was normally a comparison of most places. I'll tell you the sound it really didn't take me on my toes for an opinion. Actually I just played the game and didn't worry much about it. I'm not really worrywart so I don't really care as long as this game kept me concerned. So basically, I really don't have much to explain in this section of my review :P.Addictiveness: 7Well, if you ask me, I've been quite addicted to this game for a while so yes, it was pretty amazingly addictive. I was literally glued to this game, I would say a week in a row, but I stopped playing after a while. It was a good game though that always kept me on the challenge. Who ever made this game knew what he/she was doing. Every time I get closer into this game there was a new challenge waiting. It was nice though, and this game actually taught me something about Pokemon. I think I've proven my point. However, though, you would know what I mean when I say :). Story: 7Game was well thought out and it wasn't like most of the hacks I play. It actually was the goal to it, most of the hacks I played was pretty stupid and did stupid things like I would say there was no purpose in what they did. So that's why this game has a pretty good story for me. The only thing that's quite complicated, but wait, I've got solving this problem. Through the game you will get help from the creator, inside the game. Just to let you know that it would be wonderful to talk to a golden little cream cone looking thing, or as he said in the pyramid game. It's also a good way to help you. The smart way is this, so just remember if you get stuck you can always talk to this thing. It's pretty creepy that it's almost anywhere like it haunts you or something :P.Depth: 7Well I'd say this game is really something, no matter how long I've played I still haven't managed to complete this game. I only had 4 characters and I still thought it was supposed to be the end of this game. I knew it was hard, but I didn't know it took so long to complete. Unfortunately, I lost all hope for this game because after getting the heck out of it. My data was deleted, I do not know how, but I was told that it was the time the site went to maintenance and a lot of data was removed from the peoples of the game. Well anyway, when my data is deleted, I need some time away from this game at the moment, and now I'm here again, I decided that this game was just fun for me to give up so much, and I really wanted to see it ending, so I decided to start playing again. One up because it was purely awesome. I don't want to restart again, so I really hope the game pull through for me this time :P.Difficulty: 7As I mentioned before this one hard cookie. The game is really well put together, in one tight shell beat. I don't see how, you get less money from the fight, and the items you buy way more expensive. So that means that throughout the game for me I never Evan made it to 1000 in money. So that's what I mean very hard. I needed to buy potions and a few more things, but it was impossible for me to do that. It may seem a little silly, but all that training without healing and other things has paid off. I was a great Pokemon trainer :P.Overall: 9.5All together this whole game was a bundle of joy. I was very upset when my profile was deleted because, I was really interested. I just couldn't bare it, and for a moment of the day I hated it, but now I'm refreshed and ready to take up the challenge again. I like this game and all you guys should have. I'd really like to say that instead of finishing reading this review. You all have to go on stage and spend do viz on Ruby's Pokemon Destiny - Life Guardians. Good luck to all of you guys who enjoy this review :). Two years after they left the world of POK'EMON, the boy began his journey in the Region of Gento, east of the Heva region. His journey took place in the real future. After he purchased his second badge, he went to Bug Forest to continue his journey, which later found Celebi crying for help. Grass POK'MON took it into the future. He learned that his friend, The Blitz, was controlled by Shadow Of Lugia, who destroyed Rentelbud City. After he won the battle, Celebi returned him to real time. Soon, in the forest of Francia, he discovered that the Royal Darkness was trying to capture The Sticckia, but it turns out that they were defeated elsewhere. Now Palkia has found the man she is looking for and sent him into a false reality, another reality created by The Go-Getters Team. It was completely different. Blitz and Crohn's explained what happened that in both worlds, two years ago, Diark, the leader of the Royal Darkness, found a shadow stone that he used to turn Lugia into The Shadow of Lugia. However, in his world, another Lugia died due to a failed attempt by the Royal Darkness to capture the two Meadows, but in the world of the Blitz, Royal Darkness successfully caught both, but one escaped and gave birth to offspring. And the offspring were Baby Lugia, which they gave him to help him save his future. Soon the POKEMON Ranger asked him to help stop the Royal Darkness from turning Lugia into the Shadow of Lugia, and he agrees. And at the base of the Royal Darkness, he found the Blitz, which also helped. However, after they defeated the Royal Darkness with Shadow Of Lugia on their side, she escaped with the Blitz. He couldn't stop them. Shortly after, a ranger called him, asking for help to stop Shadow Of Lugia in Cherrygrove City. He found an island south of the city, and inside he met a man in a red hood who told him he was the key of hope. Then the man disappeared, and so he moves on. After he defeated Shadow of Lugia, the Blitz was finally liberated from the control of the shadows, but in a rage, he attacked him again with anger, however, it is a frenzy him confused, giving them a chance to escape. The blitz was to the headquarters of the Rangers to recover. Rangers then found the location of the Shadow of Lugia; Vermillion City. By this time the coach was already playing in the POCMON League. And after he became champion, he went home where his brother, Kevin, gave him a ticket that would take him to Vermillion. He found a mysterious island northwest of Vermillion, which he enters and found the man in the red hood again, and is fighting him. He later learned that he was Jagold, who died two years ago, and his soul was trapped in Giratina, which was then defeated by the Go-Getters team. After Giratina was defeated, there was a shadow stone, inside which was the soul of Jagold. After Diark used the stone, he merged with Lugia and turned into Shadow Lugia, and Jagold's soul now has a new owner. Soon after, he encountered Shadow Lugia for the last time, and after he successfully eliminated it with Lugia, he disappeared and turned to dust, and soon, Jagold was free. The question is: I wanted to have Shaimina, but instead I got Giratina, why!? A: I did it specifically to increase the complexity of the game, as this is the last game in the Ruby Destiny series... The question is: In a mini-game chip fight, my opponent says it's a draw where he's clearly won (or vice versa), is it a glitch? Answer: Yes, but I was pretty darn lazy to fix it. You won't lose money if you lose, anyway... The question is: Can you tell us about Gabrieleon's whereabouts? Answer: Sure, but it's not OK: Guard's Path, Ice Edge Path, Current Path, Twilight Path (below the Current Path), Coral Sea, Fruit Basket, Oceania Sea, Heva Academy and finally back to the top of the mountain in Twilight Way. A: The entrance is in the Green Leaf. In: Where can I symbol of the city of Rint? A: Champion Joseph. B: I got a fossil from

the Mirage Tower, but where can I revive it? A: Scientists from the Ranger headquarters in Silkwind. Revived Reborn can only develop once, depending on its statistics. What are these other islands on the map of the region? A: This post can help. The question is: Alice does not appear in the Empire of Leon! I've already defeated Giratina, the ships, and the Dragon Tower. A: Princess Alice will appear there after you talk to Chaomego in the Tower of Destiny and then after you talk to Giratina and/or Shaimin in Lost Shadow. New question: I've already caught/met/struggled with the four dragon gods, but Chaomega won't let me start a snippet collection quest! A: This error will be fixed in version 16.
